

To Whom It May Concern

Re: Letter of reference to McCann Construction – January 2021

I am pleased to provide this reference letter for McCann Construction and Property

Over the past few years, McCann Constructions has worked for us on a few new Club construction projects – New Gaming Area, New Bar and Upgraded Façade to the Club.

We have found Brad and his team to be very knowledgeable and co-operative throughout the course of each of these projects. In addition, they have been responsive and accommodating not only during construction but also after the projects have been completed.

All the projects have come in or close to budget as well being delivered on time. McCann Constructions were very easy to deal with and always found a resolution to any problems that arose during the process.

I would have no hesitation in recommending McCann Construction to any prospective Clubs or the like.

We look forward to working with them in the future.

Sincerely,

Robert Cassano
Chief executive Officer
